It is well known that depending on the generator and the surface quality of the forceps jaws, coagulated tissue tends to more or less stick to the instrument jaw. This unwanted effect can occur particularly often with liver tissue and is critical in neurosurgery. For these applications in particular, we have designed our Bipolar Forceps with integrated irrigation channel. The coagulation area is irrigated through a built-in irrigation channel inside the forceps branch which can be connected to a standard irrigation hose. By means of this irrigation the sticking of the tissue is substantially reduced and surgical work is made easier.

### Advantages of Reusable European Irrigation Bipolar Forceps

- *A universal hub connector allows irrigation tubing to be connected easily.*
- *The ergonomically designed handle provides less fatigue and a well balanced instrument.*
- *Nylon coating resists abrasion and provides superb insulation.*
- *For high visibility our irrigation tube can be recessed into the forceps blank (buried irrigation).*
- *Compatible with all common electrosurgery unit.*

Note: More Bipolar Irrigation Forceps are available use IR extension to any regular bipolar forceps.

During the coagulation process, tissue and tips of forceps can stick together. Pantex non-stick bipolar forceps are made with a special silver alloy and therefore prevent tissue from sticking. Disturbing and time consuming disruptions for cleaning the tips during surgery are thus avoided. Due to the good thermal qualities of silver the temperature of the forceps tips does not exceed 100°C during coagulation, which enhances the non-stick effect. With over ten years of experience we can guarantee that our bipolar forceps do not stick. The non-stick effect remains constant and is not reduced by frequent sterilization. Our non-stick bipolar forceps together with the appropriate connection cables are compatible with all common types of high-frequency units such as Erbe, Martin, Berchtold, Valleylab. Pantex Surgical Bipolar forceps non-stick are available in straight, angled or bayonet shape. Available lengths range from 110 to 300 mm. Tips can be made from 0.25 to 2.0 mm width. Forceps are also available with different measurements as well as with flat pin or 2-pin plug.

### **Advantages of Reusable Non-Stick European Bipolar Forceps**

- *Ten years of experience speak for themselves. Our forceps do not stick – never!*
- *No cleaning during surgery*
- *Especially high thermal qualities*
- *All Non-stick Bipolar Forceps are re-usable and autoclavable.*
- *Compatible with all common electrosurgery unit.*

The Pentax Surgical bipolar forceps are available in various lengths and shapes for different surgical and anatomical requirements. The reusable Bipolar forceps make it easy to coagulate tissue. Sticking effects on the tips of the forceps are reduced to a minimum.

### Advantages of Reusable US Bipolar Forceps

- *Highly polished tips reduce tissue adherence.*
- *Light closing force causes less fatigue over time.*
- *Nylon coating resists abrasion and provides superb insulation.*
- *Reusable, durable, and designed for multiple uses.*
- *Precision tip alignment aids fine control.*
- *The Instruments is autoclavable.*
- *Compatible with all common electrosurgery unit.*

Note: More Irrigation Bipolar Forceps are available use IR extension to any regular bipolar forceps.

During the coagulation process, tissue and tips of forceps can stick together. Pentax Surgical non-stick bipolar forceps are made with a special silver alloy and therefore prevent tissue from sticking. Disturbing and time consuming disruptions for cleaning the tips during surgery are thus avoided. Due to the good thermal qualities of silver the temperature of the forceps tips does not exceed 100°C during coagulation, which enhances the non-stick effect. With over ten years of experience we can guarantee that our bipolar forceps do not stick. The non-stick effect remains constant and is not reduced by frequent sterilization. Our non-stick bipolar forceps together with the appropriate connection cables are compatible with all common types of high-frequency units such as Erbe, Martin, Berchtold, Valleylab. Pentax Surgical Bipolar forceps non-stick are available in straight, angled or bayonet shape. Available lengths range from 110 to 300 mm. Tips can be made from 0.25 to 2.0 mm width. Forceps are also available with ell as with flat pin or 2-pin plug.

### **Advantages of Reusable Non-Stick European Bipolar Forceps**

- *Ten years of experience speak for themselves. Our forceps do not stick – never!*
- *No cleaning during surgery*
- *Especially high thermal qualities*
- *All Non-stick Bipolar Forceps are re-usable and autoclavable.*
- *Compatible with all common electrosurgery unit.*

Our Diathermy instruments are tested at high volts to ensure proper functioning during the most stringent operations. With the best quality stainless steel, excellent finishing and superior insulation, we provide worldwide guarantee for all our Diathermy instruments. Diathermy instruments are available in four base types. Models popular Diathermy Instruments : Adson, Jeweller, McIndoe, Standard, Bayonet, Artery Forceps, Wilson Hey Forceps, Diathermy Scissors, etc in various lengths, tip sizes, and 4 plug types

### **Advantages of Reusable Diathermy Instruments**

- *Lightweight and well balanced to prevent fatigue.*
- *Highly polished tips minimise sticking.*
- *Precision tip alignment aids fine control.*
- *Compatible with all common electrosurgery unit.*

Pantex Surgical disposable bipolar forceps have been designed and tested to meet the practical. The main purpose for offering single-use bipolar forceps is to avoid the risk of contamination while remaining cost effective and utilizing the functionalities of the higher end forceps. Hardened stainless steel provides an optimum spring tension and serves as the basis for a superior instrument

### **Advantages of Disposable Bipolar Forceps**

- *Lightweight and well balanced to prevent fatigue.*
- *Highly polished tips minimise sticking.*
- *Nylon coating resists abrasion and provides superb insulation.*
- *Precision tip alignment aids fine control.*
- *Cost effective in comparison to re-usable.*
- *All Bipolar forceps available with cable, sterile packed.*
- *Compatible with all common electrosurgery unit.*

These E-Z Clean Laparoscopic Electrodes are made from very high quality raw material which ensures hassle free work performance at its user end. These E-Z Clean Laparoscopic Electrodes are widely finds its applications in various medical sectors.

### **Salient Features of our E-Z Clean Laparoscopic Electrodes**

- *Provide excellent dissection and coagulation for a variety of surgical applications.*
- *High-tech PTFE coating for reduced eschar buildup.*
- *Reintroduction during surgery is minimized.*
- *Lower power settings for safer delivery of electrosurgery.*
- *Tips are cost-effective because they Save Time and Money.*

Electrode handle with blade electrode for single-use. Sterile packaging in individual pouches. Ready to use. This handle is made of high quality material and fits into the surgeon's hand comfortably due to its ergonomic shape. The quality meets highest expectations and fulfills all required international safety regulations.

- *Single-use electrode handle including blade electrode and 3 m cable (also available: 5 m)*
- *Individually packaged, sterile.*
- *Push buttons for cutting and coagulation.*
- *Unit side: 3-pin connector.*
- *Tips are cost-effective because they Save Time and Money.*
- *Suitable also for use with ERBE, Martin or Berchtold units, by addition of an adapter especially designed for such purpose.*

**Ball Electrode 4mm Shaft 13cm**  
 Disposable: 381-1030-S Reusable: 381-1030-R

**Ball Electrode 5mm 13cm**  
 Disposable: 381-1032-S Reusable: 381-1032-R

**Circle Loop Electrode 4mm 0.7cm**  
 Disposable: 381-1034-S Reusable: 381-1034-R

**Circle Loop Electrode 6mm 0.7cm**  
 Disposable: 381-936-S Reusable: 381-936-R

**Circle Loop Electrode 8mm 0.7cm**  
 Disposable: 381-1038-S Reusable: 381-1038-R

**Circle Loop Electrode 10mm 0.7cm**  
 Disposable: 381-940-S Reusable: 381-940-R

**Plate Electrode Small**  
 Disposable: 381-1042-S Reusable: 381-1042-R

**Plate Electrode Large**  
 Disposable: 381-1044-S Reusable: 381-1044-R

Pantex Surgical Cables are available in disposable and reusable grade. We offer high quality silicon cables even for our single-use instruments thus making sure that all cables are able to withstand electrical current above the standard requirements. Furthermore, numerous tests including continuity and leak test ensures that our cables will work under the toughest requirements. Multiples sizes and plugs are

available as per the need of the customer. Our cables are durable, flexible and able to withstand sterilization processes if needed. By following international standards we ensure that our cables are compatible with most major ESU's. Our cables are available in lengths 3 m, 4 m or 5 m.

**Bipolar Cable**

Instruments Connector: **USA 2-Pin Plug**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1100**  
 Single Use 3m Cable **381-1102**

**Bipolar Cable**

Instruments Connector: **European Flat Plug**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1104**  
 Single Use 3m Cable **381-1106**

**Bipolar Cable**

Instruments Connector: **USA 2-Pin Plug**  
 Generator Connector: **Pin Distance 29mm**  
 Reusable Silicon 3m Cable **381-1112**  
 Single Use 3m Cable **381-1114**

**Bipolar Cable**

Instruments Connector: **European Flat Plug**  
 Generator Connector: **Pin Distance 29mm**  
 Reusable Silicon 3m Cable **381-1108**  
 Single Use 3m Cable **381-1110**

**Bipolar Cable**

Instruments Connector: **Bipolar Artery Sealer**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1116**

**European Bipolar Cable**  
 Instruments Connector: **European Flat Plug**  
 Generator Connector: **Martin Type**  
 Reusable Silicon 3m Cable **381-1118**

**US Bipolar Cable**  
 Instruments Connector: **USA 2-Pin Plug**  
 Generator Connector: **Martin Type**  
 Reusable Silicon 3m Cable **381-1120**

**European Bipolar Cable**  
 Instruments Connector: **European Flat Plug**  
 Generator Connector: **Erbe Type**  
 Reusable Silicon 3m Cable **381-1122**

**US Bipolar Cable**  
 Instruments Connector: **USA 2-Pin Plug**  
 Generator Connector: **Erbe Type**  
 Reusable Silicon 3m Cable **381-1124**

**Bipolar Cable**  
 Instruments Connector: **Ethicon**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1126**

**Monopolar Cable**

Instruments Connector: **Screw Type**  
 Generator Connector: **Standard Bovie 8mm Plug**  
 Reusable Silicon 3m Cable **381-1128**

**Monopolar Cable**

Instruments Connector: **4mm Female Fitting**  
 Generator Connector: **Standard Bovie 8mm Plug**  
 Reusable Silicon 3m Cable **381-1130**

**Monopolar Endoscopic Cable**

Instruments Connector: **4mm Female Fitting**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1132**

**Diathermy Cable**

Instruments Connector: **4mm Male Fitting**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1134**

**Diathermy Cable**

Instruments Connector: **4.8mm Female Fitting**  
 Generator Connector: **4mm Banana Plug**  
 Reusable Silicon 3m Cable **381-1136**

**Diathermy Cable**

Instruments Connector: **4.8mm Female Fitting**  
 Generator Connector: **Stan. Bovie 8mm Plug**  
 Reusable Silicon 3m Cable **381-1138**
